History of Chicopee

THE City of Chicopee, bordered by the Connecticut, and crossed by the Chicopee River, has an area of over 25 square miles, contains five separate divisions, with a population of 44,626 in 1945. The name Chicopee was given to the river long before the white man came, and is an Indian word meaning "raging, violent water"

From 1641 to 1848 this section belonged to the town of Springfield, and as far as known, no settlers lived here until about 1656. Land from "one mile south of the Chicopee River to the Willimansett Brook" was deeded to William Pyncheon of Springfield by the Indians in 1641. Samuel Chapin, who came to Springfield late in 1642, bought two "parsels", gave one, in what is now Chicopee Street, to his son Japhet, and the other to a son, Henry, near the junction of West and Center Streets. By 1660, other young men of the Springfield families received grants as far east as Berchams Bend, Chicopee Falls, and the settlement of the Northern Villages was a fact. Forests were cut, houses built, land cultivated, and small industries developed.

The First Church on old Chicopee Street was formed in 1751, the building finished in 1752; by another one hundred years ten churches, separate from Springfield, were organized. When the mother town desired to become a city, the citizens of these northern sections appealed to the General Court of Massachusetts for a right to be incorporated as a separate township. This petition was granted, April 29, 1848, which date is celebrated this year. By 1890 Chicopee was large enough to have a City Charter, and the first Mayor, George S. Taylor, was inaugurated, Jan. 1, 1891.

In 1825, Boston capitalists, attracted by the fine water power, built cotton mills, a dam, and the Canal in 1829. The Ames brothers brought their foundry to Chicopee Falls, moving to Cabotville (Chicopee Center), a few years later. Many famous industries have grown up here, but not all have remained. The Dwight Cotton Mills moved to Alabama, 1927. Other products are: guns, cannon, bronze bells and statues, swords, silverware, agricultural implements, knitting machines, underwear, rubber goods, automobiles, sporting goods.

Chicopee was chosen in 1939 as the home of the U.S. Army North Eastern Air Base, now turned over to the Air Transport Command, one of the largest air bases in the East.

General Arthur MacArthur was born in Chicopee Falls. Mary Garden, Forest Lamont, George Reardon, Sylvia Zaremba, Charles O'Connell, and other musicians, are connected with Chicopee.

One Massachusetts Governor, George D. Robinson, lived here.

SPALDING

This is one of the world's best known, most respected trade-marks. It has been the mark of the Pioneer in the sports equipment field since 1876. It is the symbol of an organization that has kept the faith with the Athlete, the Instructor and the Spectator for three generations.

Today, as always, every piece of athletic equipment bearing this trade-mark is accepted without question in America — and throughout the world — as the finest.

CHICOPEE, FAIRVIEW, WILLIMANSETT NUMERICAL DIRECTORY

EXPLANATORY NOTES

The streets are arranged alphabetically with their descriptions, each description followed by a numerical arrangement of householders, places of business and street intersections. (Arranged by rotation where no numbers have been assigned.)

The abbreviation r between the street number and the name signifies "rear."

The word "vacant" after a number signifies that the house, office or store at that number was vacant when the canvass was made.

△ Indicates telephone at this number.

"(Right even)" after street description indicates even numbers on right side of street.

The symbol ◎ following a householder's name indicates that information has been secured during the canvass that the house is owned by some member of the family, but as the publishers cannot and do not guarantee the correctness of the information furnished, nor the complete absence of mistakes, no responsibility for errors can be or is assumed, nor can the publishers furnish further information than that shown.
